

Stevens Point Christian Academy *Volunteerism*

The most successful Christian schools become more successful with the involvement of parents and grandparents. This enables us to provide the best variety of academic, social, spiritual, and athletic opportunities.

The degree of volunteer involvement is directly related to the amount of, and quality of, events we host each year. Each family should purpose to be involved in at least one event or area of need during the school year in addition to our annual Jog-A-Thon. Many hands make the work load light.

Each family is required to clean the school one to three times throughout the school year as scheduled. The schedule will be given out during orientation. If a family chooses they may buy out the cleaning at a rate of \$50.00 per time scheduled.

Areas of involvement include: tutoring, athletic and academic event judges and coaches, Parent Advisory Board, teacher assistants, office assistants, recess and/or detention supervisors, SCRIP, bulletin board designers, Jog-A-Thon volunteers, field trip chaperones, maintenance and construction project help. A parent survey is given to each family at orientation which lists these and other areas you can get involved with. We ask all families to fill out the survey and return it to our office. Anyone interested in volunteer opportunities can contact our office for more information.
